EDUCATION

Computer Systems Technology Diploma

Sept 2023 - May 2025

British Columbia Institute of Technology

Bachelor of Science

Sept 2020 - Feb 2022

University of British Columbia

SKILLS

Languages: C#, JavaScript, TypeScript, SQL, Python

Frontend: React, Blazor Server, HTML, CSS, TailwindCSS

Databases: MongoDB, SQLite, MySQL

Tools & Cloud: Git, Azure, Docker, Bash

Concepts: REST APIs, Authentication (JWT), WebSockets, MVC Architecture, Agile, Unit Testing

PROJECTS

Relay - Real-time messaging application

Mar 2026

React, Node.js, Express, MongoDB, Socket.io, JWT, TailwindCSS, Azure

- Built a full-stack real-time messaging app using MERN stack and WebSockets for low-latency communication
- Implemented secure authentication with JWT in HTTP-only cookies and server-side validation
- Developed real-time messaging system using Socket.io for bidirectional event-driven communication
- Integrated image uploads via Cloudinary and GIF sharing via external API
- Managed client state with Zustand for authentication and UI state handling
- Designed RESTful APIs with Express and MongoDB for scalable data modeling

Side Quests - AI-powered activity discovery app

Jan 2026

C#, .NET, Entity Framework, SQLite, Blazor Server, Azure, Semantic Kernel

- Built a full-stack activity discovery application using C# and .NET with Blazor Server
- Designed a code-first database using Entity Framework and SQLite for data persistence
- Integrated AI-powered location-based activity recommendations using Semantic Kernel

WORK EXPERIENCE

West Coast Car Rentals - Automotive Detailing Agent

Mar 2026 - Present

- Transported luxury vehicles with care and professionalism
- Communicated with team members and clients to ensure smooth vehicle pickups
- Performed detailed vehicle inspections and cleaning processes with a focus on consistency and quality standards

Woking Dragon - Line Cook

Apr 2021 - Jul 2023

- Worked with team members to deliver consistent, high-quality service in a fast-paced restaurant environment
- Prioritized and coordinated multiple customer orders under time pressure, ensuring accuracy and timely service during high-volume shifts
